

Cal OES Internal Statewide Incident Briefing

2000 hours, October 30, 2022

(Unclassified // FOUO)

CGS Seismic Hazards Program staff met in-person for the first time almost 3 years. They shared updates, highlighted projects in the pipeline, & brain-stormed new ideas to make California more earthquake-resilient. 10/28/22

Sunday, October 30

	Sun, Oct 30	Mon, Oct 31	Tue, Nov 1	Wed, Nov 2	Thu, Nov 3	Fri, Nov 4	Sat, Nov 5
Fire Weather Low RH / Wind / Dry T-Storms	Southern (LA/Ventura Counties)						
Thunderstorms Wind / Hail / Tornadoes							
Heat							
Cold					Inland/ Coastal	Inland/ Coastal	
River Flooding							
Wind			All Regions (Strongest in the Sierra)	Inland/ Southern	Inland/ Southern		
Heavy Rain Flash Flooding / Debris Flow							
Snow			Inland (Mainly the Sierra)	Inland/Southern (Mountains)	Inland/Southern (Mountains)		

Risk Levels

Little to None

Minor

Moderate

Major

Extreme

Weather Key Points

- Dry weather will continue across the state through Monday afternoon, with breezy winds bringing locally elevated fire weather conditions to the Los Angeles and Ventura County mountains and valleys, especially on Sunday
- A storm system will cross the state through mid to late week, bringing an increase in lower elevation rain, higher elevation snow, and gusty winds for many areas as well as notably cooler temperatures
 - **Impacts:** No widespread burn scar impacts are currently expected from this event as much of the moisture looks to be very beneficial. Some impacts to travel from accumulating snow are possible at times through Thursday, especially above 4,000-5,000 feet. Potentially impacted areas include I-80 over the Sierra, portions of I-5 in far northern California, and the Grapevine in southern California.
 - **Timing:** Precipitation arrives Monday night and Tuesday across northern California, becoming more spotty on Wednesday. Across southern California, a few showers are possible on Tuesday but better precipitation chances arrive later Wednesday and Thursday.
 - **Snow:** Moderate to locally heavy mountain snow is expected above 6,000 feet through Wednesday, especially over the Sierra. However, snow levels will fall quickly to 3,000- 4,000 feet across northern California and down toward 4,000-5,000 feet across southern California through late week.
 - **Temperatures:** Near-freezing temperatures could develop for portions of the Central Valley Wednesday through Friday nights, and readings could dip into the upper 30s even for some areas closer to the coast across northern California
 - **NOTE:** Some uncertainty remains regarding the exact timing and strength of this storm that could impact precipitation amounts

SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

2022 May Monkeypox Virus

On 08/01/22, the Governor proclaimed a State of Emergency to support the State's response to Monkeypox. A copy of the proclamation can be found [here](#).

The California Department of Public Health (CDPH) activated the Medical and Health Coordination Center (MHCC) at Level 3 (low) in response to the 2022 May Monkeypox Virus event on 05/24/22; and increased the activation to Level 2 on 07/18/22.

- Hours of Operation: Monday to Friday, 0800 hours to 1700 hours until further notice.

Emergency Management Assistance Compact (EMAC)

- Nothing significant to report.

Cal OES INLAND REGION

- Monitoring the incoming storm event scheduled for 11/1/22 - 11/4/22. Additional updates will be provided if conditions escalate.

Cal OES COASTAL REGION

- Monitoring the incoming storm event scheduled for 10/31/22 - 11/3/22. Additional updates will be provided if conditions escalate.

Cal OES SOUTHERN REGION

- Monitoring the incoming storm event scheduled for 11/2/22 - 11/4/22. Additional updates will be provided if conditions escalate.

Derailment, Bloomington, San Bernardino County, Spill Report: 22-6401

On 10/30/22 at 0015 hours, the California State Warning Center (CSWC) received a report from the Union Pacific Railroad (UPRR) advising that two Locomotives and one box railcar derailed in the upright position due to unknown causes. No train involved, occurred in a railyard on Track #119 in Yard 1, nearest crossing is Cedar Ave & Orange St. No Hazmat reported at the time of initial report.

- 0530 hours, the contractor who was hired to re rail the locomotive punctured the fuel tank resulting in Diesel releasing onto the ballast. The tank holds 4000Gal(s). Contractor conducted cleanup.
- No waterways were impacted.
- There were no injuries reported.
- CSWC personnel performed notifications per SOP.

COVID-19 SUMMARY

Coronavirus Disease 2019 (COVID-19)

On 03/02/20 at 0700 hours, the Cal OES State Operations Center (SOC) activated at Level 1 in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

SMARTER Plan

On 10/17/22, Governor Newsom unveiled the "[California Smarter Plan Updates October 2022](#)". The plan emphasizes continued readiness, awareness and flexibility and helps ensure California can maintain its focus on communities that continue to be disproportionately impacted and stay prepared to swiftly and effectively respond to emerging COVID-19 variants and changing conditions. Governor Newsom is set to lift the State of Emergency in early 2023, and this update provides information on California's progress to date and how we move forward.

CDPH Statewide Travel Advisory
